Omar: you have been voluntold and pulled further into the Dewey Burdock Vortex!

Stop by if you wish to discuss your workload.

Valois will be in touch soon!

Douglas

That would be wonderful! I can get with him Friday & show him what I have done so far on the permit applications. I have a list of the documents that should be in the administrative record & I can start putting them on the I: drive where he can find them all easily.

Thanks!

Valois

Could Omar take the lead on this? He has good working knowledge based on his current research on posting documents to our website. He has been invested in the Class VI FOIA but should be finishing that up this week.

Douglas

Subject: just thought of 508 compliance

Hello Sarah & Douglas,
That 508 compliance requirement just now crossed my mind. We should probably factor a review of that into our timeline. I haven't quite finished getting the permit applications into compliance with 508 yet. I have started on it though. The only thing we need to do for our documents is add the annotations to each figure. Some other documents in our admin record may require more work.
Thanks!

Valois
